I benefit from listening to XM Satellite Radio and its traffic and weather channels during daily drives across states. Satellite radio provides variety and quality that are not available elsewhere. Satellite Radio also provides me a link to news and entertainment in areas that do not have other broadcast programming available. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully request that you reject the National Association of Broadcasters' petition 04-160 and to support XM's ability to provide the kind of programming that I, as a consumer, deserve.
